Our Approach

The services we provide are multi-disciplinary and often bio-psychosocial in nature. We adopted a *holistic human care* approach with multi-disciplinary professionals, including physicians, psychiatrists, nurses, social workers, psychologists, care givers etc., needed to make contributions to the effective curing & rehabilitation process.

Our client group is composed of orphans, widows, mentally & physically ill men and women, the elderly destitutes, women who are in distressed state & homeless people in the community...

We make difference by giving an impact!!!
